

Why you are always a cut above the competition when you use LUTZ blades

WHY LUTZ

- » Flexibility thanks to CNC technology and rapid prototyping
- » Prelaunch initial samples within a few days
- » Top-of-the-range quality in series production. Consistency from the first to the millionth blade.
- » Application-specific materials and hard coating
- » Standard blades > 1500 models
- » Special blades > 500 models
- » Smallest batch size = 1
